Get great results with our detailed evaluations and proven therapies!

To achieve optimal results, we use the latest evaluation and treatment technology. This combination of leading-edge equipment and one-on-one care will ease your discomfort and speed your recovery.

We offer an array of soothing treatments and rehabilitation equipment. Our enthusiastic care team customizes your treatments and tailors exercise programs to get rapid results. Our goal is to restore you to optimal function and improve your quality of life. We emphasize your abilities and encourage prevention, health and fitness as a way of life so you can do all the things you enjoy.

Our carefully customized special programs enhance your life.

We offer work-injury, postinjury and postsurgical rehab programs that help prevent on-the-job injuries and lost income. We also offer special programs that enhance your health and wellness in other ways.

Back To Work — We can help you overcome back pain and all kinds of work-related injuries while we teach you how to avoid future problems.

Sport-Specific Enhancement — No matter what your sport or level of conditioning (professional athlete to weekend warrior), we can enhance your game. We include sport-specific training for enhanced strength, flexibility and stamina.

We add positive motivation to your recovery efforts.

Compassion, a positive attitude and a one-on-one hands-on approach go a long way. We care, and we show it. We're enthusiastic, motivated and positive with our patients. We always take the time to explain procedures and recommendations thoroughly.

We also provide thorough exams, discuss options, explain programs and answer your questions. We never rush you. You'll always have the same physical therapist right beside you, every step of the way on your journey to recovery.

The result of all this personal care: great word of mouth. We have a long list of satisfied patients and doctors who frequently refer their family members and friends to us — so we can return them to work, sports and daily life quickly and safely.

We keep you and your referring physician informed.

Once you are referred to us, we keep your physician informed of our findings, your progress and your next steps. We discuss your diagnosis and coordinate treatment recommendations with your referring physician and make referrals to other healthcare professionals as needed. You're always assured of the treatment your physical therapist and your physician agree is right for you.

Extraordinary patient-first care and professionalism set us apart.

It takes a fully trained and licensed physical therapist to give you the help you need and ensure the best possible results. That's why our staff includes licensed physical therapists who stay with you from start to finish.

We also realize that you have enough to handle when you're hurt. That's why we make the time you spend with us more convenient:

- Minimal waiting for appointments
- Lunchtime & Saturday appointments available
- Flexible payment plans
- Convenient location ■ On-site health club
- Most insurance accepted & filed
- Handicapped-accessible

We care enough to follow up, too.

We truly care about your recovery. That's why we go the extra mile to follow up with your doctor, employer and insurance company.

As for any tests, treatments or special programs not covered by your insurance, we offer flexible payment plans. Add it all together, and you have a good idea why we're different, and so much better for you.
